MESSAGE FROM
THE CHAIRMAN

"With tremendous industrial developments in the new millennium, Qatar has now become one of the fastest growing economies in the global world.

Having said that, our visionary leadership is to keep pace with the advancements to support our customers in every way to establish new and better partnerships with the help of proficient resources.

I am proud to assert that the company is now well-equipped to offer a comprehensive range of services in the field of Fire & Safety, Security, ELV systems, and Lighting Fixtures.

I truly believe that the commitment of our talented staff and support from industry's leading partners have assisted us in every phase to accomplish what we are today."

SHEIKH NASSER ABDUL RAHMAN AL-THANI, CHAIRMAN

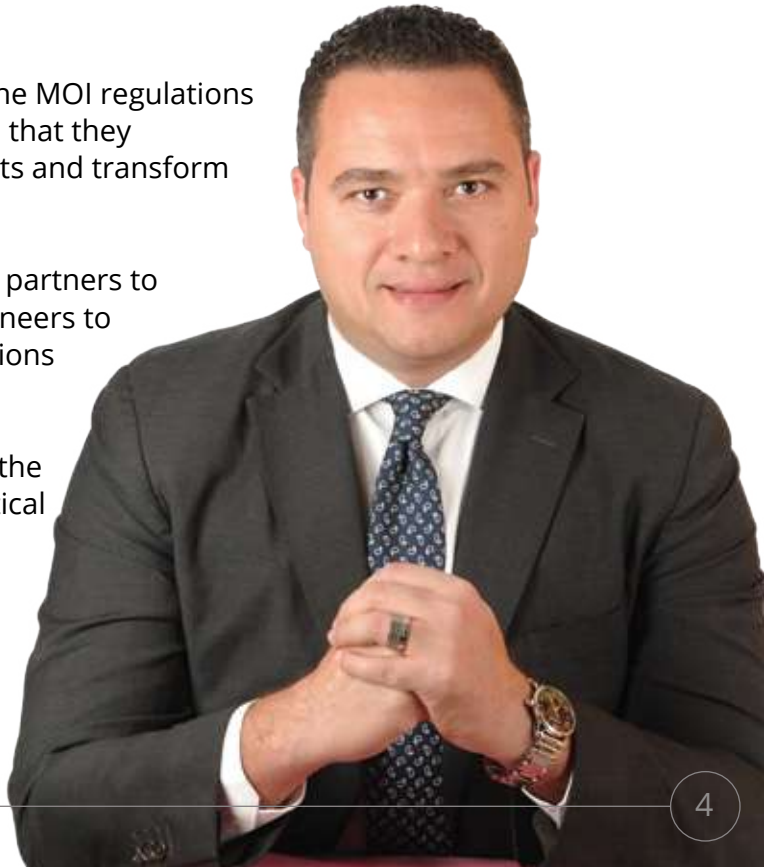
MESSAGE FROM **THE CEO**

"Our vision is to help shape our customer's ideas and thoughts into real, unique, tailor-made, and cost-effective technical solutions that not only serve the industry better but also compliments their business requirements.The notion is to incorporate products and technologies available in the market. We completely comprehend that each project is inimitable and needs exclusive solutions to accomplish specific end-user necessities.

Our skillful engineers and experts, who are aware of the MOI regulations and QCD regulations for Fire & Safety systems, ensure that they evidently understand and meet the user's requirements and transform them into cost-effective technical solutions.

The team at Remal works meticulously with the global partners to empathize their needs and then, train the factory engineers to make sure they deliver outstanding and efficient solutions to the customers.

When it comes to product choice, we don't just follow the design documents blindly. Rather we consider aesthetical and environmental factors as primary objectives.
That's the specialty of Remal International"



AHMED MOKHTAR , CEO

Established in the year 20011, Remal International (formerly known as Remal Electric Power WLL) has been active in the Qatar market as a renowned system integrators for Electronics & Physical Security, ELV, Fire & Safety systems. Due to a huge market demand for enhanced security systems, Remal launched its sister company called Remal Security in the year 2014.

REMAL'S Divisions are as follows:

REMAL SECURITY

REMAL PROJECTS

REMAL FOOD & BEVERAGES

REMAL FIRST CLASS

Remal management and staffs have more than 15 years of experience in design, implementation, and maintenance of large scale turnkey integrated Electronics and Physical Security, Audio Visual, Fire & Safety, and Lighting systems locally as well as internationally.

Remal group features some of the most skilled and recognized experts in operations, business analysis, project, and program management. The team constitutes of well-trained, certified, and supreme technicians in diverse domains and products. We customize solutions based on your needs and bring unprecedented industry expertise.

WHY CHOOSE REMAL INTERNATIONAL

We offer industry's leading and prominent solutions.

We are certified by the Qatar Civil Defense Department for delivering products in fire & safety.

We have a team of best engineers and technicians, who are QCDD-approved.

We feature a wide range of safety products, each designed with incredible quality and durability.

We offer a highly responsive pre and post sales customer service.

We focus on building innovative products with quality

We are aware of both Qatar Civil Defense and NFPA requirements. Our expertise revolves around the two to ensure that the requirements are met.

COMPANY HISTORY

06 — **2018**

REMAL INTERNATIONAL

Re-branding is done. This gave birth to Remal International and the journey is still on...

05 — **2016**

REMAL FOOD & BEVERAGES

Remal diversifies again and introduces F&B to it's wide range of services and products with Sweet Treats & Lab Cafe.

04 — **2015**

REMAL PROJECTS

Remal extends its reach by inaugurating it's first branch outside Qatar by introducing different business projects in Egypt.

03 — **2014**

REMAL FIRST CLASS

Remal expanded its local business by launching Remal First Class.

02 — **2013**

REMAL SECURITY

Remal Security was established pertaining to Security, Low Voltage Fire Alarm, Fire Fighting Systems, and Lighting business requirements.

01 — **2011**

Heliopolis Technical Services was founded with ELV systems as its core business.

QUALITY POLICY

Perfect teamwork to provide High Quality services to our valuable customers as per their requirements on time every time.

- Quality checking at every stage.
- To become Zero complaint organization on our services.
- Immediate action upon customer complaints within 24 hours.
- Adoption of update know how for the enhancement of performance.
- To create and maintain a culture of quality within the group.
- To ensure that all our employees are trained in quality assurance and that this training is ongoing at all levels.
- To meet all legal requirements.
- To provide the resources necessary to achieve the required level of quality.
- To provide documentary evidence of all quality control measures.
- To continually review, improve and implement quality control and best practice procedures.
- To seek feedback from our clients as to the level of quality delivered.

REMAL
SECURITY

4458 3627

When it comes to
SECURITY SYSTEMS, REMAL OUTPERFORMS IN EVERY ASPECT

www.remal-intl.com

Remal Security is a sister company of Remal International WLL, and is specialised in security systems - CCTV, Access Control, Intrusion Detection, Perimeter Security, etc. Securing the premises has been a major concern for all asset owners since the beginning of this century. In Qatar, the Ministry of Interior rose to the occasion and have come up with stringent guidelines for the implementation of security systems in different types of businesses and facilities.

&

When it comes to security systems, Remal Security outperforms in every aspect. Be it design, functionality, variety, or durability, we have everything to surprise our customers.

WHY CHOOSE REMAL SECURITY

Evaluation of existing safety and security systems, optimization and enhancement of designs to comply with the any client or governmental requirements.

Consultancy, Design and Value Engineering for new and existing projects.

Supply, installation, testing and commissioning Operational and technical training.

Preventive and Breakdown Maintenance.

Turnkey Solutions.

We never compromise on security and safety. We audit existing security systems and help in enhancing the design to comply with the requirements of the authorities.

We provide auditing services for security & safety systems that are implemented in existing facilities and which need essential upgrades to comply with the current regulations of local authorities. Our services also include preparation of RFQs with necessary specifications, drawings and BOQs.

The current technological era calls for enhanced security systems. In fact, they play a major role in every business or facility. Talking about the construction industry in specific, it also has to follow the rapid technological advancements.

CCTV SURVEILLANCE SYSTEM

At Remal, we supply a wide range of CCTV surveillance systems. We provide end-to-end CCTV solutions with comprehensive VMS, Storage, and LAN, ensuring that they are fully compliant with MOI regulations.

Securing the premises has been a major concern for all asset owners for a long time now. In Qatar, the Ministry of Interior has come up with stringent guidelines for implementing security systems in different types of businesses and facilities.

Not only we adhere to their guidelines but also ensure that our range of CCTV surveillance cameras, have video recording storage and management solutions guarantee the value and worth that you anticipate from a security system.

Our CCTV video monitoring and recording systems constitute diverse components/devices, which majorly include:

- HD CCTV Cameras
- Video Analytics
- Video Wall, Display Monitors
- High-end Servers, Work Stations, and Storages
- Video Management System Software
  API, SDK for Integration with Access Control,
  Intrusion Detection and Building Management Systems
- Integration with third-party systems

INTEGRATED ACCESS CONTROL SYSTEM

Securing today's occupational landscapes involve strategic methodologies and proactive tactics to prevent possible risks. Integrated access control systems are even more advanced than what they were in the past decade and thereby, creating a safe environment for any workspace.

Security practitioners need future-proof, robust solutions to be able to flexibly implement, as security necessities evolve. Remal takes care of these challenges with consistency and scalability.

An access control system is a crucial requirement for any secured facility, as this enables only authorized personnel to enter the premises, given that they have valid access credentials

Access control system's major components:

- Access Controller/Panels
- Access Card Reader
- Long Range readers
- Biometric - Facial, Finger Print, Palm readers.
- Access Cards- MIFARE DESFire, Omniclass, iClass, Proximity etc.
- Magnetic/Strike Locks
- Door Sensors
- Exit Button- Push Button and Infra-Red types
- Access control management software

INTRUSION DETECTION & PERIMETER PROTECTION SYSTEM

By definition, PIDS (Perimeter Intrusion Detection Systems) is used in external environments to identify an intruder who is trying to breach or crack a perimeter.

In short, intrusion detection and perimeter protection system is all about preventing an unauthorized entry into a premise. Intrusion detection/alarm plays a major role in any security-controlled facility and helps detect any intrusion with the help of a laser, fence mount or buried sensor cable, motion/infrared sensor, microwave, or a combination of both.

Intrusion/ Security alarms are used in residential, commercial, industrial, and military properties for protection against burglary (theft), property damage, and to even protect humans against intruders.

Remal understands the importance of all these, and that's why we offer a suite of software and hardware components that provide a range of PIDS solutions and integrated options have developed security solutions that proactively help detect threats before they could escalate.

COMMAND & CONTROL CENTER

Command and Control Center enables security and law enforcement agencies to identify threats to public security and critical infrastructure.

REMAL offered solutions include a wide range of mission-critical tools and applications to increase situation awareness and enable field units to deliver a real-time response for any security incident.
Having profound experience in the security industry, REMAL brings field proven technology, backed by professional expertise and “real-world know-how” to increase personal safety and public security.

The Command & Control Center allows the security & law enforcement agencies to identify threats that can occur to public security and critical infrastructures.

REMAL offers a wide range of mission-critical tools and applications to increase awareness and enable field units to deliver a real-time response for any security incident.

With years of expertise in the security industry, REMAL has apt experts to bring the right technology that can increase personal safety and public security.

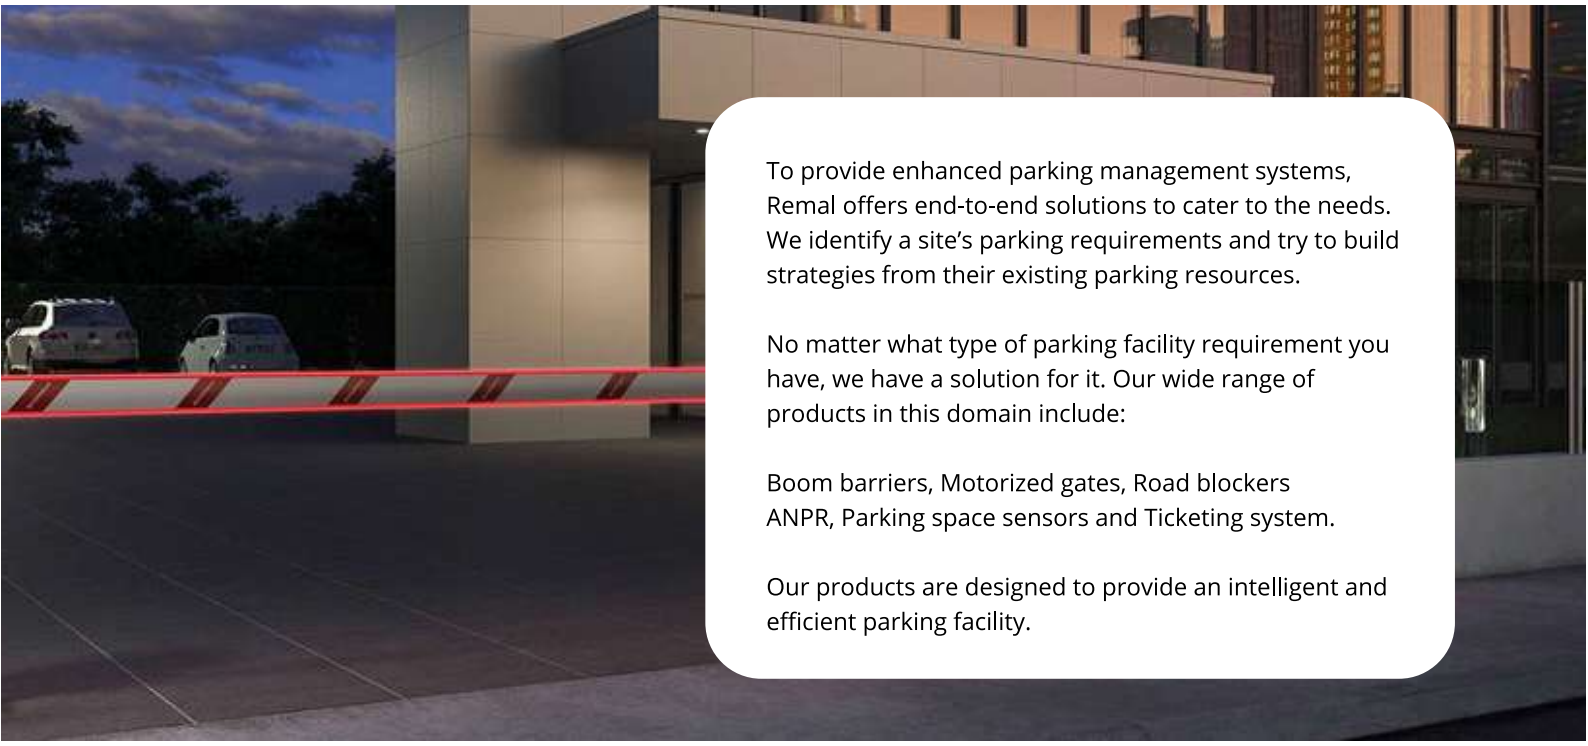
CAR PARKING MANAGEMENT SYSTEM

Insufficiency of beneficial parking systems create troubles for every motorist. Due to its complex nature, enhancements in existing parking facilities turns out to be too hard.

Most independent institutions and organization have their parking facilities. Depending on a site's needs, the parking management framework differs. Since every requirement is unique, what has been deployed in one site might not work for the other.



To provide enhanced parking management systems, Remal offers end-to-end solutions to cater to the needs. We identify a site's parking requirements and try to build strategies from their existing parking resources.

No matter what type of parking facility requirement you have, we have a solution for it. Our wide range of products in this domain include:

Boom barriers, Motorized gates, Road blockers
ANPR, Parking space sensors and Ticketing system.

Our products are designed to provide an intelligent and efficient parking facility.

UNDER VEHICLE SCANNING/ INSPECTION SYSTEM

Today, every building is designed with ultra-modern technology to address the requirements of Life Safety, Security, Telecommunication, Entertainment, Building Automation etc.

But with an abundance of technical products, customers still find it perplexing to choose the right technology that caters to their business processes. Selecting and implementing the right technical system is highly important to ensure that the desired value is delivered.

With today's increasing security needs, the challenges to control public parking has become even higher. The vehicles entering and exiting key locations on an everyday basis has grown, especially in public spots like - Malls, Airports, Public Parking, Hotels, Hospitals, etc.

With this, the importance to implement better, efficient, and secured UVSS (Under Vehicle Scanning Systems) has become important.

BAGGAGE SCANNER, METAL DETECTOR & LETTER BOMB DETECTOR

Given the current scenario, you will find multiple metal detectors, baggage scanners, and physical checkpoints almost everywhere. Considering this, it is no surprise that at airports, Sea ports, Hotels, Governmental buildings the busiest transportation hubs, security is becoming tighter day after day.

With this, the use of advanced baggage scanners and metal detectors have become more prevalent. Considering this, Remal can provide high-end X-Ray Machines that suitable different baggage sizes and cargo goods. We also offer walkthrough and handheld metal detectors for detecting even small metallic objects.

Remal provides letter bomb detector to check all suspicious mail like letters and small parcels. The solutions offered can easily handle and detects all kind of metal and alloys and even very small components of improvised bombs or incendiary devices.

PHYSICAL SECURITY + INFORMATION MANAGEMENT SYSTEM

PSIM (PHYSICAL SECURITY + INFORMATION MANAGEMENT SYSTEM) software is a force multiplier, especially for organizations with a large physical footprint. The specialty of this software lies in the fact that it geospatially aligns information and assets into a single user interface.

PSIM has five core areas of functionality:

It collects the information
It analyzes the information
It verifies the information
It resolves the information
It tracks the information

With industry experts and immense expertise, Remal is well known to develop intelligent security solutions. Our tools can simplify different security operations and streamline situations both in public and private sectors.

LOW CURRENT SYSTEM

LOW CURRENT

Remal offers more than just solutions. We work together with our customers and business partners to provide optimum solutions that help businesses perk up with operational efficiency.
We make complete projection and do turnkey projects with paramount low-current systems.

Remal has keenly responded to the augmented technological demand in the field of construction throughout the world and has leveraged its potential in System Integration & Implementation to offer end-to-end systems to contractors on both small-scale and big-scale projects.

IP TV & SMATV

Dish farms, Splitters, Multi-switch, Set-up boxes, Interface, Cabling & convertors

Our engineers design and implement appropriately located head end equipment and well engineered distribution network to ensure uniform distribution to all outlets, whether it is a small building or a large complex. We provide traditional RF and IF distribution as well as IPTV solutions.

IP TELEPHONY

PABX, IP Switches, End points
Cables (Fiber/Cat6A)

We provide end to end passive network infrastructure - copper and fibre solutions, to TIA/EIA standards, whether your requirement is Cat 6, Cat 6A or Cat 7

IP INTERCOM

Handsets | Audio and Video panels | Cabling and switches

Audio and video entry-phone systems for apartments and villa complexes are sometimes classified as security systems.
We have a full range of products including business intercom systems.

MASTER CLOCK

We provides a wide range of master clocks and synchronized clock systems, which include Wireless Clocks, IP PoE Clocks, Wi-Fi Clocks, Wired Clocks, and TalkBack Wireless Clock System.

We offers school clocks, hospital clocks, elapsed timers, and clock systems for manufacturing plants, business complexes, transportation facilities, hotels and many other industries and a time zone clock that can be powered via PoE, 24V, 115VAC, or 230VAC.

At REMAL, our primary focus is to provide reliable synchronized time systems, which incorporate advanced technology, durability, and quality.

HOME AUTOMATION

Home automation gives you access to control devices in your home from a mobile device anywhere in the world. In Home automation nearly everything — lights, appliances, electrical outlets, heating and cooling systems — are hooked up to a remotely controllable network. From a home security perspective, this also includes your alarm system, and all of the doors, windows, locks, smoke detectors, surveillance cameras and any other sensors that are linked to it.

Home automation is a step toward what is referred to as the "Internet of Things," in which everything has an assigned IP address, and can be monitored and accessed remotely.

The first and most obvious beneficiaries of this approach are "smart" devices and appliances that can be connected to a local area network, via Ethernet or Wi-Fi. However, electrical systems and even individual points, like light switches and electrical outlets, were also integrated into home automation networks, and businesses have even explored the potential of IP-based inventory tracking

ELECTRONIC KEY MANAGEMENT SYSTEM

- It ensures that only authorized users have access to specific keys.
- It features an audit trail of exactly who has taken which key and when it was removed or returned.
- It minimizes the downtime wasted while locating keys.
- It holds the staff accountable for the keys they take.
- It makes sure that the keys are returned before handover.
- It sets a curfew to alert the management if a key isn't returned
- It saves money by replacing keys and locks due to misplaced, lost or stolen keys.
- It improves safety and security processes by ensuring that the sensitive keys don't get into the wrong hands.

OUR PORTFOLIO INCLUDES THE FOLLOWING

Structured Cabling Network
Whether your requirement is Cat 6, Cat 6A, or Cat 7, we provide end-to-end passive network infrastructure for copper and fiber solutions, keeping the TIA/EIA standards in mind.

Public Address & BGM System:
We have solutions ranging from simple analogue PA/BGM system to fully digital, networked, public address system We also implement sound reinforcement systems for live music or concert in auditoriums.

SMATV System
Whether it is a large infrastructure or a small building, our technicians design and implement appropriately-located equipments and well-engineered distribution network to ensure uniform distribution in every outlet. Whatever it is, we provide traditional RF, IF distribution, and IPTV solutions.

Intercom System
Audio and video entry-phone systems for apartments or villa complexes are at times classified as "security systems." We have a full range of products catering to all these with business intercom systems.

Audiovisual Systems
Implementing audiovisual systems for businesses successfully depends on the experience of the system integrator and their access to various vendors' products. Our partnership with the world's leading vendors aids us in providing our customers with the accurate solutions for Conference Room AV systems, multimedia presentation systems, display solutions, video walls, etc.

Master Clock system
We feature a wide range of slave clocks like analogue, LCD digital and LED digital, single sided, double sided, etc. to match the aesthetics of the facility. Typically, GPS satellite clocks are utilized to ensure accurate time.

Nurse Call System
Nurse call systems are the communication links between patients and caregivers. We have different products appropriate for small clinics (that use tones and lights to indicate patient calls) and high-end hospitals (that use audio communication between the patient and nurse station).

Queue Management System
We offer systems that help you to organize your queues. We provide visitors with virtual and linear queuing solutions, booking appointments with more sophisticated methods like mobile apps and SMS.

Congress and Voting System
We also offer high-quality analogue audio with digital control/fully digital conference and electronic voting systems. Solutions are available for small meeting rooms to large conference centers.

Simultaneous Interpretation System
We offer both wired and wireless (infrared) distribution system, supporting a maximum of 12 language channels and 6 dual interpreter booths, which are fully compliant with ISO2603 and IEC 914.

OUR PRODUCT PARTNERS

09

IT/NETWORK INFRASTRUCTURE

IT/NETWORK INFRASTRUCTURE

REMAL proactively integrates system engineering and operations with the client's needs to ensure we develop user-friendly solutions. In fact, this is emphasized throughout the project implementation phase, right from detailing of designs, tendering, installations, to final testing and operational training.

Network infrastructure forms the foundation for digitization and is indeed an essential prerequisite for all technological developments. Networks provide us both global and local connection, enabling us to utilize information society.

When it comes to IT/Network infrastructure, Remal is one of the outstanding providers in the market. We do our maximum to make sure that our customers are contented.

We feature on the following:

- 10 Gigabit Layer 3 Stackable Switches
- Edge Switches
- Access Switches
- POE Switches
- Patch Panels
- Fiber Optic and Cat6/7 cables
- Wireless Access Points
- Data outlets
- 19" 42/38/28 U Data/Server Racks

WE MAKE SURE THAT WE CATER TO THE NEEDS OF MODERN DAY IT & NETWORK INFRASTRUCTURE. REMAL FOCUSES ON FOUR KEY FACTORS:

Performance

Remal is one of the fastest and certified service providers in Qatar. We feature the finest telecommunications infrastructures in the world. Our substantial investments play a significant role in this accomplishment.

Reliability

Remal is reliable and trustworthy with interference and outages. That's moderately not only due to its redundant and sophisticated structure but also to its verified technology, perfectly organized maneuvers, and dedicated staff.

Security

Remal features some of the world's highly talented workforce to make sure that we deliver a secured network. We take complete care of data protection, secure operations, and information security. In fact, many customers from sensitive fields like health, security, and banking rely on us.

Besides these, our engineers and technicians are regularly trained by the manufacturers to execute projects not only with international standards but also to facilitate necessary inspections and approvals.

OUR PRODUCT PARTNERS

10

FIRE ALARM& FIRE SAFETY

FIRE ALARM, FIRE FIGHTING & GAS SUPPRESSION SYSTEMS

Whether it is for the client or their designated workforce, REMAL amalgamates both engineering and operational services artistically. When it comes to Fire & Safety, we offer comprehensive engineering, procurement, implementation, service, and support for a wide range of sectors such as

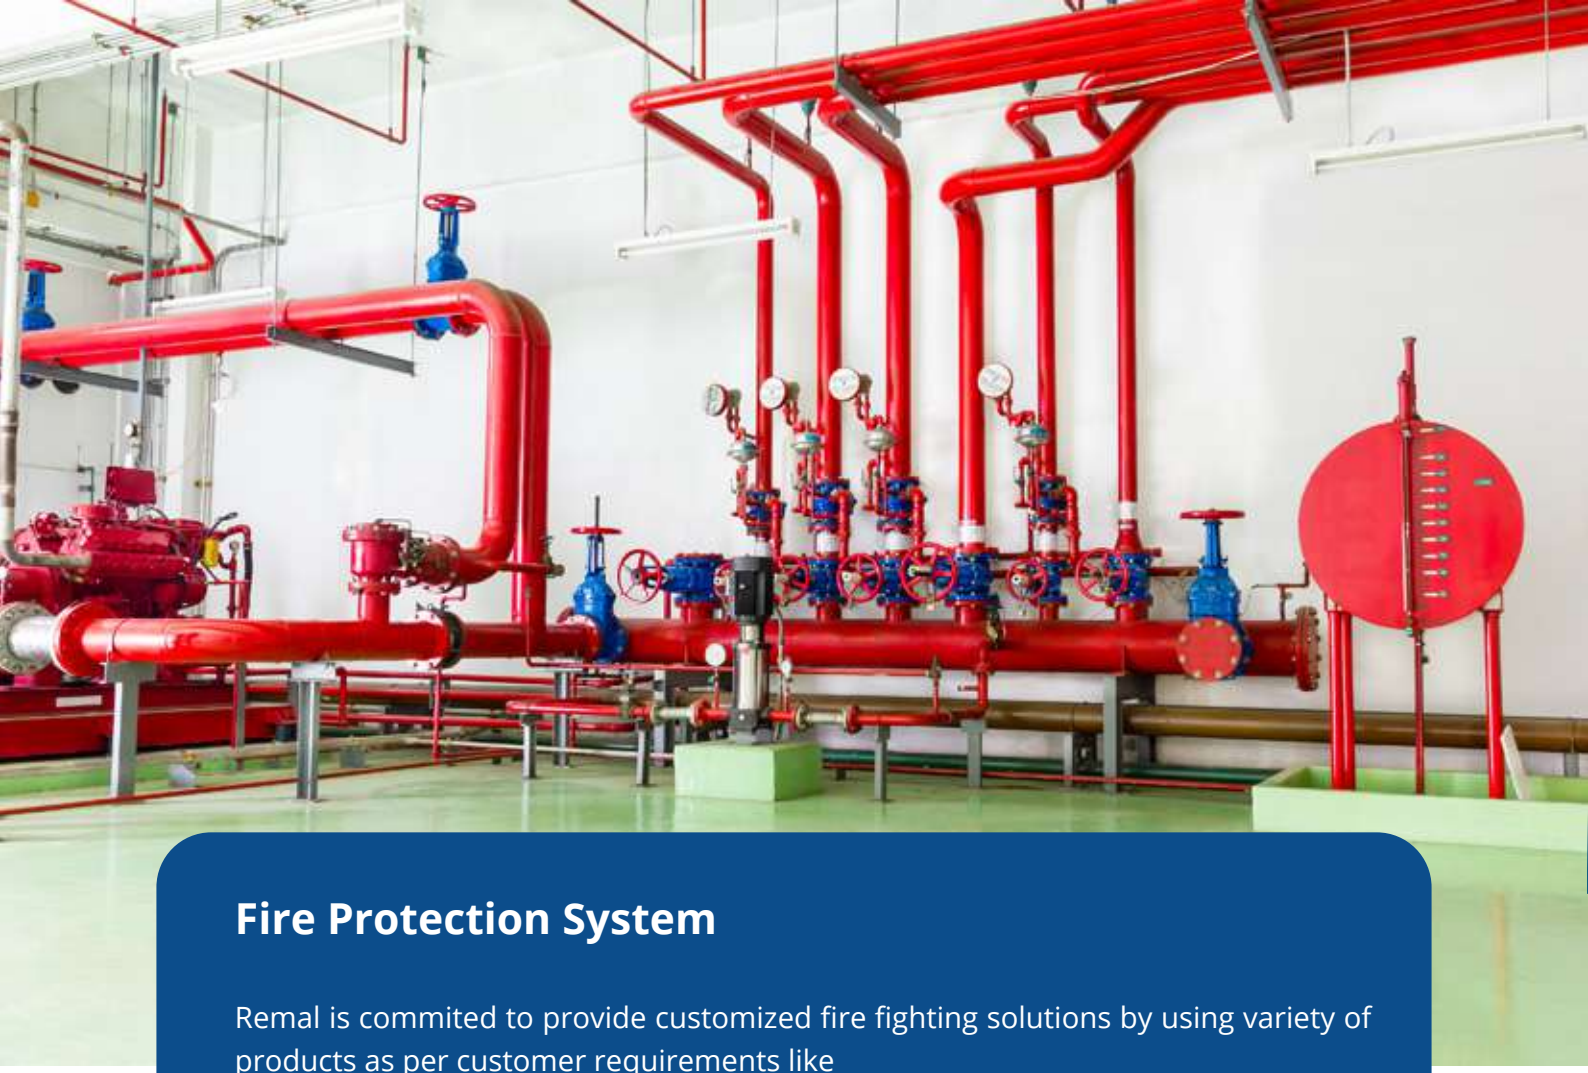
- **Oil and Gas**
- **Residential projects**
- **Commercial projects**
- **Industrial projects**

Our commitment is to meet customer requirements and expectations on full time and within their budget,for the services as under

Fire Alarm System

Conventional Fire Alarm System
Addressable Fire Alarm System

No matter what type of building it is, we provide fire detection and alarm systems for it. From conventional alarm systems to networked-addressable control panels, we have a complete setup with GUIs, aspirating smoke detection systems, etc.



Fire Protection System

Remal is commited to provide customized fire fighting solutions by using variety of products as per customer requirements like

Fire Pumps

Fire Pumps play the main role in the fire protection system by providing adiquate supply of water in to the system.

Fostered with a team of highly experienced professionals we have been able to provide the installation & service of fire pumps in a hassle free manner

Gas Suppression System

When toxic and cubustible gases are part of an industrial process, they pose athreat to people ,propertly and production. considering this, we offer a complete line of gas suppression system. Gas suppression system are idylic for defending assets when water might pose as a risk. Data & communication and IT areas tend to be the most frequent risk applications. Remal is certified in offering high end extinguishing systems just to make sure our customers have a peace of mind in receiving the finest solution for their applications

Deluge Sprinkler & Foam System

Deluge Sprinkler systems guard additional hazard occupancies, which require considerable quantities of water in order to control and cool the growth of fire. Usually, they are utilized on hazards, which contain low-flash point combustible liquids or with huge amounts of flammable liquids. Typically, these hazards can include, transformers, oil extraction processors, distillation processors, and vessel/tank protection systems. Foam deluge systems are employed while protecting big Aircraft Hangers.

Kitchen Hood Wet Chemical Suppression Sysyem

Wet chemical suppression system is used to protect modern commercial kitchen which face higher risks of fire emergencies.

Kitchen Hood Wet Chemical Suppression Sysyem

Wet chemical suppression system is used to protect modern commercial kitchen which face higher risks of fire emergencies.

Fire Hose Reel

Fire Hose Reels are located at strategic places in buildings to provide a resonably accessible and controlled supply of water for fire extinguishing

Fire Extinguishers

A Fire Extinguisher is an active fire protection device used to extinguish or control small fires

Gas Suppression Systems
FM200 System | Inert Gas System | CO2 System

When toxic and combustible gases are part of an industrial process, they pose a threat to people, property, and production. Considering this, we offer a complete line of fixed-point gas detectors.
Gas suppression systems are idyllic for defending assets when water might pose as a risk. Data & Communication, and IT areas tend to be the most frequent risk applications. Remal is certified in offering high-end extinguishing systems just to make sure our customers have a peace of mind in receiving the finest solution for their applications.

Deluge Sprinkler & Foam System

Deluge Sprinkler systems guard additional hazard occupancies, which require considerable quantities of water in order to control and cool the growth of fire. Usually, they are utilized on hazards, which contain low-flash point combustible liquids or with huge amounts of flammable liquids.
Typically, these hazards can include, transformers, oil extraction processors, distillation processors, and vessel/tank protection systems. Foam deluge systems are employed while protecting big Aircraft Hangers.

Sprinkle System

Fire sprinklers are widely recognised as the most effective tool for controlling fire before the fire fighters arrive.

Fire Pumps
Vertical Turbine Pumps | Split Case Pumps | End Suction Pumps

Trust. Reliability. Quality. Our fire pumps are verified and tested for everyday use. Fire pumps become handy when the local water system fails to provide adequate pressure in order to meet the requirements of fire sprinkler systems. Usually, this occurs in systems, which supply huge quantities of water like in storage warehouses or in high-rise buildings.

Trusted by many firefighters across the globe, Remal has set the market standard by

- All types of Fire Extinguishers: CO2, Dry Chemical Powder, Foam, Water
- Wet Chemical and Halotron
- Dry and Wet Standpipe Systems
- Fire hydrents (All types)
- Sprinkle System
- Deluge System
- Water Mist System
- FM 200 Supression System
- Foam System
- Carbon Dioxide System
- Gas Detection System
- Wet Chemical Supression System
- FIre Alarm System (Addressable, and Conventional)
- Fire Fighting Pumps (UL Listed and Non UL listed)
- End Section Centrifugal Pump
- Horizontal Split Case Pump
- Vertical Multistage Centrified Jockey Pump
- Industrial Safety
- Emergency Lighting System

11

CENTRAL BATTERY SYSTEM

CENTRAL BATTERY SERVICE CENTER

Whether you need to maintain illumination of emergency and exit lighting on a single floor or throughout an entire campus, REMAL International has an Emergency Lighting Power Solution to meet your needs.

Our high-efficiency systems include uninterruptible power supplies and fast transfer systems designed to support all lamp sources, including HID, electronic low voltage, fluorescent, LED, quartz, incandescent, and mixed loads.

The Central Battery System provides emergency power when the mains power is lost or its parameters are inappropriate, The main purpose of the system is to supply power to emergency lighting luminaries and assure 100% of the power.

We offer reliable and high quality products for AC/AC and AC/DC applications with advanced commissioning and testing functionality for easy operation.

Product Range

ILLUMINATOR E (Single Phase)
1.5kVA, 2.25kVA, 3.0kVA, 3.75kVA, 5.0kVA, 6.0kVA, 8.0kVA, 10.0kVA, 12.5kVA & 16.7kVA

ILLUMINATOR CIII (THREE PHASE)
4.8KVA, 6KVA, 8KVA, 10KVA, 12.5KVA, 16.7KVA, 24KVA, 33KVA, 40KVA & 50KVA

APPLICATIONS

Airports | Apartment/Condominium Complexes | Banks, Financial Institutions
Grocery Stores/Home Center Stores | Hospitals | Industrial | Medical Offices
Military Complexes | Office Buildings | Movie/Performing Arts Theaters
Railroad, Subway, Bus Stations | Shopping Malls | Tunnels and Bridges

Battery Charger is software-controlled, 2-step, temperature compensated, 24-hour recharge for 90 and 180 minute run system as required.

Batteries are Front access, maintenance-free, sealed lead calcium VRLA batteries are standard. Significantly reduces footprint installation and maintenance time and increases safety.

Inverter with dynamic pulse-by-pulse current limiting and inrush protection. Short circuit and overload protected by microprocessor and PWM integration for maximum reliability.

Our products are UL listed to UL924, Emergency Lighting and Power Equipment, meets and exceeds the requirements of OSHA for emergency lighting and power, NFPA70, NFPA110, NFPA101, UBC, and SBCCI. N.Y. City approval #45228.

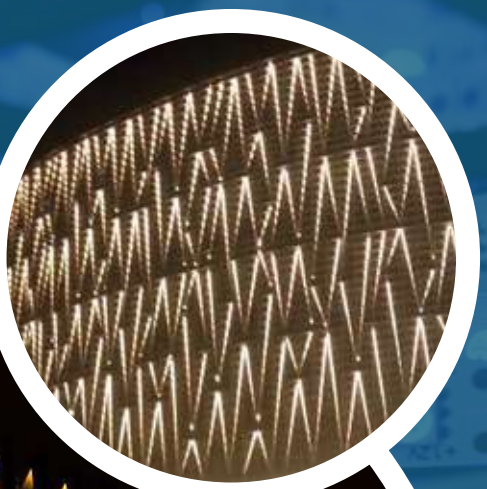
12

LIGHTING

LIGHTING

The expertise of Remal lies in its professional teamwork and we stick to this in every business process. We work in close coordination with the consultants and clients to make sure that the preferred light fixtures not only complement the architectural design but also augment the aesthetics.

Our engineering potential and collaboration with leading manufacturers bind the best products and technologies to create an ultimate customer experience.



Architectural Lighting

Our architectural lighting focuses on 3 fundamental factors of a space/building's illumination.

Aesthetic appeal: Vital for retail environments
Ergonomic aspect: The purpose the lighting serves
Energy-efficiency: Saves energy from light

Facade Lighting:

Our façade lighting shapes a building's architecture and highlights the details in a multifaceted manner by directing the light precisely.

LED Lighting

Our LED lighting is exclusively designed for lower energy consumption, longer lifetime, enhanced physical robustness, compact size, and faster switching lighting solutions. These lights are a great alternative to conventional incandescent and fluorescent bulbs.

Stadium Lighting
Our stadium lighting illuminates outdoor playing fields when an outdoor sports event is being held in low-light conditions.

Street Lighting
We collaborate with a wide range of manufacturers across the globe to offer incredible street lighting products to our customers, which include from light poles, lampposts, to street lamps in various styles and fashions.

Emergency Lighting
Our emergency lighting devices come with powerful batteries that turn on automatically whenever the supply to the main line fails.

INDOOR LIGHTING PRODUCTS

At Remal, we supply a wide range of Indoor Lighting Products. We provide end-to-end CCTV solutions with comprehensive VMS, Storage, and LAN, ensuring that they are fully compliant with MOI regulations.

Our LED lighting is exclusively designed for lower energy consumption, longer lifetime, enhanced physical robustness, compact size, and faster switching lighting solutions. These lights are a great alternative to conventional incandescent and fluorescent bulbs.

MAINTENANCE DIVISION

MAINTENANCE DIVISION

No one will expect an issue with his or her security systems or access control systems to occur. However, they are inevitable and when they happen, it is vital to have them handled by experts.

This is where REMAL comes in. We are always there on your side to identify the best solutions to a problem. We help in eliminating all your worries and concerns – be it a damage, a repair or a functionality in the system. We have skilled technicians and experts to address and solve malfunctions that might arise.

Be it residential, commercial, airport, or marine field, we offer comprehensive maintenance services for the following:

ELV (CCTV, Access Control, Public Address, IPTV, Telephony etc)
Fire fighting
Fire Alarm & Central Battery equipments
Servicing & Refitting of Extinguishers

We assist our contract clients with periodic maintenance and provide 24 x 7 emergency services for all types of systems throughout Qatar.
A well trained team in the maintenance department makes sure that the system works effectively and sustains routine maintenance inspections, tests, and minor modification activities under the supervision of factory trained professionals.

PLANTS EQUIPMENTS & MACHINERY

PLANTS EQUIPMENTS & MACHINERY

We specialize in sourcing as well as converting high-end materials, which are typically a bit different. Our unrelenting success is built on eminent partnerships with excellent manufacturers.

These longstanding bonds have made REMAL provide one of the fastest and direct-access solutions customers need. Unlike other businesses, we do not give you solutions that are more expensive or technical than your requirements and budget. We will never oversell something on purpose that our customers really don't need.
